

ASHRAE Thailand Chapter Webinar - RCM (Reliability Centered Maintenance) in Maintenance and Design

Date : 26 Feb 2021 (Fri)
Time : 19:00 – 21:00
Venue : Zoom (Meeting ID will be provided for successful applicant)
Zoom account is required to join this webinar

These points can be use to promote professional engineering license.
This course have 1.5 time of CPD point amount 3 units.

Medium of instruction

English

Date: 26 Feb 2021

RCM (Reliability Centered Maintenance) in Maintenance and Design

Reliability centered maintenance (RCM) and design to a large extent has replaced time-based maintenance in aeronautical and manufacturing projects. The great improvements in reliability and safety in buildings which can be achieved will be demonstrated when compared with inefficient maintenance in many buildings.
